## PROFILE

I am a **Frontend Developer** who likes to **learn new skills** and **programming languages**, I always try to find the best way to do things, and I also like to play games and make games myself, I've also **volunteered in college fest as an event organizer**.

As for my hobby, I do video editing and make edits of my favorite characters in games that I like to play.

## EDUCATION

### Bachelor's In Computer Application

Bharati Vidyapeeth Deemed Universtiy  
Kharghar, Navi Mumbai

## PERSONAL PROJECTS

### Typing Master

I used **HTML, CSS, and JavaScript** to make the mini project, I mostly used JavaScript in this project to load paragraphs, reset functions, and count the mistakes and words per minute, I made this project to understand more about JavaScript and CSS.
